

## Trullo to Brindisi Airport

Turn right out of the Trullo and head back to the main road.

Follow this road, under the bridge, and around the right fork, up the hill (one way).

Follow the road back down to the roundabout, with the hotel on your right.

Go straight over and turn left at the junction.

Get into the right hand lane and follow signs for Monopoli

You will be back on the road you came in on, heading towards the mountains.

As you leave the mountain road and get back on the straight look out for signs for Brindisi.

Take the exit, Left, and filter into the motorway to Brindisi.

Follow signs to Brindisi until you see signs to the airport.

Take the exit and follow signs to the Airport.

You will go over a series of roundabouts, keep following signs to the airport.

Park your car in the hire car park to the right of the terminal and take your keys to the bureau.

Have a good journey.

Extras: You will need some petrol so you can return the car with a full tank (make sure you do this, as if not you will receive heavy fines).

Take the exit (right) to the airport, follow the road and turn left at the junction (at the end of the slip road).

Immediately on your left, there is a tiny entry to the petrol station. Take this road into the petrol station, fill up the car and use the same road to head back up onto the airport road.
